with BIODANZA

Six profound vivencias will be prepared by:

Alenka Poljšak

practitioner of biodanza from 2016, from Slovenia with specializations: biodanza with children and adolescence, identity and four elements, biodanza in nature and biodanza with archetypes. Enthusiastic dancer of 5rhythms for many years and last 8 years also of biodanza.

Alenka Blazinšek

professor of defectology at primary school in Celje, practitioner of biodanza from 2015, from Slovenia with specializations: identity and four elements. She loves the life in all its beautiful forms and enjoy being a woman, a wife, a mother, a friend ... and lives fully in the moments.

Klavdija Lutman

practitioner of biodanza from 2015, from Slovenia with specializations: biodanza with children and adolescence, identity and four elements, biodanza with archetypes. In her early education she learned about textile technology, discovered the possibilities of creating with leather and studied at the School of Emotional Intelligence and the Family of Inner Light. For six years she led the Society for Creative Expression named "Children of the Moon and the Sun". Music and movement brought her to biodanza and has been leading the weekly groups since 2015 and is delighted to share knowledge and enthusiasm for life among people

Mag. Mojca Tavčar

practitioner of biodanza from 2017, from Slovenia with specializations: biodanza with children and adolescence. In 2016 she became a Master of Psychology, a clinical direction. The topic of her research and the master's thesis was dance as a therapeutic tool. A qualitative study on the effect and functioning of biodanza, which was carried out in the task, means a rich contribution to the research of movable dance techniques in Slovenia.

Nataša Kern

didacta of biodanza from 2006, from Slovenia and finished her study of biodanza at the school of biodanza in Milano, Italy - also manytimes with Rolando Toro Araneda as a teacher. She started in 2003 with devoting her life to spread the benefits of biodanza in Slovenia. She leads weekly groups and workshops also in Croatia, Austria, Italy and coordinates the School of biodanza SRT in Slovenia. Her specializations are: biodanza with children and adolescence, biodanza with clay, identity and four elements and biodanza in nature.

Prof. Dr. Evandro Oliveira

is Portuguese and lives in Germany. He does biodanza in organization and for intercultural communication. He has as well developed a theoretical model for working with Men in biodanza (bassed among other on Giddens, Jung, Erickson, Rolando Toro Araneda ...). International facilitator of biodanza in Germany, Austria, Israel and Dutch.

Rodrigo Toro Sanchez

is Chilean and the son of Rolando Toro Araneda, creator of the Biodanza System. He is Professor and Didacta of Biodanza formed directly by Rolando Toro. He is, together with Claudete Sant'Anna, the current President of BIODANZA ROLANDO TORO, the international organization that regulates and certifies the Training Schools and the professionals that carry out the "Original Biodanza" created by Rolando Toro. He is Director of the School of Biodanza Original SRT of Madrid and teaches at Training Schools around the world and also teaches regular biodanza classes in Madrid. In 2012 he published the book *Rolando Toro / Origins of Biodanza* where he explains through the biography of Rolando Toro what are the foundations that gave rise to this discipline, whose practice has gone around the world.
